Five members of the local Y. P. C. U. of the Northfield Universalist church attended the Y. P. C. U. general convention in Boston last week. It was a very successful and inspiring meeting. The young people are building three mission churches: One in St. Paul, Minn., one in Little Rock, Ark., and one in Atlanta, Ga. About \$3,000 was raised in a short time at the convention to assist in the building of these missions. The general convention next year is to be held in Washington, D. C.

Town Treasurer H. L. Kenyon has sent out a statement to each taxpayer of the amount assessed against him for the present year. The tax on the grand list is: Town, 60¢; town school, 75¢; town highway, 30¢; village tax, 75¢; village highway, 30¢; graded school, 80¢. This makes the total for the taxpayer in the village \$2.45, on the dollar of the grand list; and the total for the taxpayer outside the village, \$1.65. From this amount a 4 per cent discount is allowed on all taxes paid before October 12. The re-appraisal of real estate last year resulted in a general advance of property in the village and this would naturally be expected to reduce the percent on the grand list, but the falling off in the personal list, for various reasons, left it about the same. Thus, nearly all who own real estate in the village find their taxes considerably larger than before because of the increased assessment.

## VERMONTIERS WENT AWAY.

Annual Excursion to Boston Was Made Yesterday.

Manchester, N. H., July 24.—The Vermont association of Manchester held its annual excursion yesterday, Boston being the objective point. The trip was open to both members and friends of the organization with special rates, making the trip one of unusual attractiveness.

A special train left Manchester at 7 a. m. and returned from Boston at 11:40 last night, allowing the excursionists plenty of time to attend the theater in the evening. The greater portion of the party went on to Nantasket beach upon reaching the City of Beams in the morning, however, and returned on the late boats in time to join the rest of the party on their special. Others visited River beach or other points of interest about Boston, while some took the opportunity for a quiet visit with friends in that vicinity.

The arrangements were in charge of a special committee, headed by President Wesley M. Rockwell. About seventy-five persons were on the special train leaving Manchester in the morning, but more went later, as the tickets were good for any train. But few of the excursionists returned before the last train in the evening.

How do you know but the fellow who is going gayly to destruction hasn't got the best of it?

No Place For Burglar Under Bed. With every big robbery reported in hotels furniture manufacturers come to the front with the boast that wherever else the robber may have hidden himself it certainly wasn't under the bed, because beds nowadays are built too low for even the thinnest of villains to hide under them.

"For many years losses of money and jewelry," said a furniture manufacturer the other day, "were attributed indirectly at least to the bed, which was built high enough to afford protection to the thief. Finally in order to save the good name of that necessary piece of furniture we decided to build it so low that not even an infant can crawl under it, thereby compelling the enterprising burglar to seek a hiding place elsewhere."—Philadelphia Record.
